

Edit assigned instances

The Assigned Servers window allows you to change the SQL Server instances on which the login has permissions. To [tag a server instance](#), select [Server tags from the Tags drop-down list](#) or add a new tag by [choosing New tag from the list](#). Select the SQL Server instances on which you want the login to have permissions and click **Add** button to move them to the **Selected Servers** column. Click **Next** to continue.
