

# Reporting Services requirements

IDERA SQL Compliance Manager allows you to use Microsoft SQL Server Reporting Services (Reporting Services) to provide on-the-spot reporting on your audit data. The Report Server computer should meet or exceed the hardware and software requirements recommended by Microsoft to run and manage the Reporting Services components.

**To successfully use Reporting Services in your SQL Server 2000 environment**, deploy Reporting Services version 1.0 SP1 or later (SP2 recommended). **To successfully use Reporting Services in SQL Server 2005 or later environments**, deploy the Reporting Services components released with the current version of SQL Server.

**To successfully integrate SQL Compliance Manager reports with Microsoft Reporting Services**, ensure your logon account has Content Manager Rights on the Report Server.

**SQL Compliance Manager** monitor, audit and alert on SQL user activity and data changes.
