

Deploy Reports wizard - Connect to Reporting Services tab

The Connect to Reporting Services tab of the Deploy Reports wizard allows you to specify the Report Server to which you want to deploy the IDERA SQL Compliance Manager Reports. The Deploy Reports wizard automatically applies connection settings based on a default Microsoft Reporting Services installation. You can use the default connection settings, or specify custom connection settings.

To specify connection settings, click **Show advanced connection options**, and then enter the appropriate settings.

Click **Next** to continue.
