

SNMP Configuration window

The SNMP Configuration window allows you to specify the server address, port number, and community name of the network management console that you want to receive a IDERA SQL Compliance Manager alert notification as SNMP Trap messages.

Type the appropriate server address, port, and community name in the provided fields, and then click **OK**.

Click **Test** to verify that you entered the proper information for the network management console.

SQL Compliance Manager monitor, audit and alert on SQL user activity and data changes.
