

Navigate the IDERA Dashboard

What is the IDERA Dashboard?

The **IDERA Dashboard** is a common technology framework designed to support the entire IDERA product suite. The **IDERA Dashboard** allows users to get an overview of the status of their SQL Servers and hosted databases in a consolidated view, while providing users the means to drill into individual product dashboards for details.

The **IDERA Dashboard** is comprised of the following tabs:

- [Overview](#)
- [Details View](#)
- [Alerts](#)
- [Administration](#)

What actions can be performed in the Overview tab of the IDERA Dashboard?

In the **IDERA Dashboard** users can glance at their registered products overall status through the **Overview** tab. This tab contains product widgets of all the products registered with the IDERA Dashboard. By default the **Overview** tab contains the following widgets:

- **Alert Status** - displays the total number of alerts available on the environment in the current date and time. It also displays the number of alerts by status: Critical, Warning, Informational, or Ok.
- **Instance status** - displays the total number of the monitored instances on the environment in the current date and time. It also displays the number of instances by status: Critical, Warning, Informational, Ok, or Disabled.

You can expand or collapse a widget by clicking . You can also view a widget in full size by clicking  or remove it by clicking .

Additionally, you can **Filter** information either by product or tags on the top section of this tab. If you want to remove your filters, click on **Clear filters**.

What actions can be performed in the Details view of the IDERA Dashboard?

The **Details View** allows users to view their **Instance Details**. Select the instance on the drop-down list available and the **IDERA Dashboard** will filter information regarding to that instance.

What actions can be performed in the Alerts view of the IDERA Dashboard?

The **Alerts** view allows users to view the information about available alerts on the environment. This information can be filtered by:

- Product
- Category
- Severity
- Metric
- Tag

When using filters take into account:

- Click the respective checkbox to add or remove your selections.
- If you want to select filters first and apply the changes later, deselect the **Apply filter as it changes** option.
- To remove filters, use the specific **Remove Filter** option in each filter. For example, if you want to remove your product filters, click **Remove Product Filter** under the same filter section.
- Under **Applied filters** on the top section of your **Alerts** view, you can see the filters you have selected. Click the **X** icon next to the ones you want to remove.
- Use the option **Clear** on the top section of the **Filtering** to remove all filters.

What other options are available on the IDERA Dashboard?

Once in the **IDERA Dashboard** page, click  gear icon available for the **Administration** settings. Once you click on it, there are the following options available:

What actions can be performed in the Administration view of the IDERA Dashboard?

In the **IDERA Dashboard**, all products show a common **Administration** tab when the logged-in user has administrator privileges. Selecting this tab displays the Administration view which hosts a range of sections for performing administration-related actions.

In this tab you can perform the following options:

- [Manage Users](#)
- [Manage Instances](#)
- [Manage Products](#)
- [Managing Tags](#)
- [Configure Navigation Order](#)
- [Configure Dashboard Views](#)
- [Send Notifications](#)
- [Manage Licenses](#)

Most of these options can also be accessed from the  gear icon located on the top right corner of the UI.
