

Explore Activity - Audited SQL Servers View

The Explore Activity Audited SQL Servers view displays the status of audit activity across your SQL Server environment. Use Summary tab to view the statistics and graphs to quickly identify issues so you can continue to ensure the correct level of compliance in your environment. View in detail your previously generated alerts by selecting the respective alert tab.

The screenshot shows the IDERA SQL Compliance Manager application window. The title bar reads 'IDERA SQL Compliance Manager'. The menu bar includes 'File', 'Edit', 'View', 'Auditing', 'Alerting', 'Agent', 'Tools', and 'Help'. Below the menu bar is a toolbar with 'New', 'Launch Web Console', and other icons. The left sidebar is titled 'Explore Activity' and contains a tree view of the SQL environment. The tree view shows a hierarchy: 'Audited SQL Servers' (expanded) -> 'WIN-' -> 'DATABASE-' -> 'master', 'RDSTest', 'tempdb', 'test'. Below this, under 'NASH-', are 'ReportServerTempDB', 'SQLcompliance', 'SQLcompliance_WIN-', 'SQLcomplianceProcessing', 'tempdb', and 'TESTING'. The main panel is titled 'Audited SQL Servers' and has four tabs: 'Summary' (selected), 'Event Alerts', 'Data Alerts', and 'Status Alerts'. The 'Summary' tab shows a 'System Status' section with a green checkmark and the text 'All servers are OK'. Below this is a table with the following data:

Category	Count
Registered SQL Servers	1
Audited SQL Servers	1
Audited Databases	12
Processed Events	0

Below the table is a 'Recent Alerts' section with a list of alert levels and their counts:

Alert Level	Count
Severe	0
High	0
Medium	0
Low	0

The right side of the main panel is titled 'Enterprise Activity Report Card'. It has a 'Logins' section with a message: 'Logins is not currently audited for all servers.' Below this is a table titled 'Login Activity Per Server' with the following data:

Server	Max	Threshold
WIN-N	0/day	None

The bottom status bar shows a green checkmark and the text 'SQL Compliance Manager™'.
