

View all your alerts in IDERA Dashboard

SQL Diagnostic Manager includes an improved Dashboard. The Alerts tab of the SQL Diagnostic Manager web console allows you to view all alerts for all the servers in your environment.

Time	Summary	Instance	Database	Category	Show Details
4/16/2019 1:11 PM	Database IderaDashboardRepository is not backed up for 9999999 days.	WIN-U059VUJSTOLQ	N/A	Backup	Show Details
4/16/2019 1:11 PM	Database ReportServer is not backed up for 9999999 days.	WIN-U059VUJSTOLQ	N/A	Backup	Show Details
4/16/2019 1:11 PM	Database model is not backed up for 9999999 days.	WIN-U059VUJSTOLQ	N/A	Backup	Show Details
4/16/2019 1:11 PM	Database msdb is not backed up for 9999999 days.	WIN-U059VUJSTOLQ	N/A	Backup	Show Details
4/16/2019 1:11 PM	Database master is not backed up for 9999999 days.	WIN-U059VUJSTOLQ	N/A	Backup	Show Details
4/16/2019 1:11 PM	Database ReportServerTempDB is not backed up for 9999999 days.	WIN-U059VUJSTOLQ	N/A	Backup	Show Details
4/16/2019 1:11 PM	Database SQLdmRepository is not backed up for 9999999 days.	WIN-U059VUJSTOLQ	N/A	Backup	Show Details
4/16/2019 1:13 PM	Database SQLInventoryManagerRepository is not backed up for 152 days.	SIDROCTST03:SQL2014	N/A	Backup	Show Details

Organize your alerts

Your alerts are organized under the following columns:

- **Active** - Organizes all your alerts that are currently active.
- **Severity** - Organizes all your alerts by their severity (Severity 8, Severity 4, and Severity 1).
- **Instance** - Organizes all your alerts by monitored SQL Server instance.
- **Metric** - Organizes all your alerts by each of the metrics affected.
- **Category** - Organizes all your alerts by their category.
- **SQLdmRepository** - Organizes all your alerts by SQL Diagnostic Manager Repository.
- [Set your advanced filter in IDERA Dashboard](#)

Severity

In the new Alert grid, **Severity** uses the following numerical values:

- Severity 8 = Critical
- Severity 4 = Warning
- Severity 1 = Informational

The Dashboard console has a new alert grid and custom filters that help you organize your alerts in your most convenient way. Click the icon located next to the column name to expand the drop-down menu. This menu allows you to sort your criteria by Sort Ascending or Sort Descending, you can remove or add the Database, Category, and Show Details columns, and group the information by fields.

The screenshot shows the 'Alerts' page in the IDERA SQL Diagnostic Manager. The navigation bar includes 'HOME', 'TOP X LISTS', 'ALERTS', and 'CUSTOM DASHBOARDS'. The 'Alerts' section has a filter bar with 'Active', 'Severity', 'Instance', 'Metric', 'Category', 'SQLdmRepository', and 'Advanced Filter'. Below the filter bar is a download icon and a 'Clear Filters' button. The main table has columns for 'Time', 'Summary', and 'Category'. A context menu is open over the 'Time' column, showing options: 'Sort Ascending', 'Sort Descending', 'Columns', 'Group by this field', and 'Show in groups'. The 'Columns' sub-menu is open, showing 'Database', 'Category', and 'Show Details' with checkboxes.

Time	Summary	Category
4/16/2019 1:11 PM	boardRepository is not backed up for 9999999 days.	
4/16/2019 1:11 PM	er is not backed up for 9999999 days.	
4/16/2019 1:11 PM		Database
4/16/2019 1:11 PM		Category
4/16/2019 1:11 PM		Show Details
4/16/2019 1:11 PM	Database ReportServerTempDB is not backed up for 9999999 days.	
4/16/2019 1:11 PM	Database SQLdmRepository is not backed up for 9999999 days.	
4/16/2019 1:13 PM	Database SQLInventoryManagerRepository is not backed up for 152 days.	

Additional options

- Access the [single instance dashboard](#) by clicking the instance name in an alert row.
- Access the [Alerts Detail](#) screen by clicking **Show Details**.
- Export your alerts information in different formats: Excel, CSV, and HTML.

The screenshot shows the 'Alerts' page with the export options menu open. The menu is located below the 'Clear Filters' button and contains three options: 'Excel', 'CSV', and 'HTML'. The 'Excel' option is highlighted.

Time	Summary
4/16/2019 1:11 PM	Database IderaDashboardRepository is not backed up for 9999999 days.
4/16/2019 1:11 PM	Database ReportServer is not backed up for 9999999 days.
