

Codes Used by the CLI Utility

This appendix includes the following topics:

- [Technology Codes](#)
- [Product Codes](#)
- [Installation Type Codes](#)
- [Operating System Type and Flavor](#)

Technology Codes

Technology' code should be specified in some CLIs. The table below lists the technology codes used by Precise. The following table describes the syntax of the technology code argument.

Table 1 Technology code argument

Technology Code	Technology Name
DN	Microsoft .NET
JE	J2EE
OA	Oracle Applications
OR	Oracle
OS	OS
OT	Other
PS	PeopleSoft
RS	Sybase Replication Server
SI	SAP Interpoint
SP	SAP
SQ	SQL Server
SM	Storage
SY	Sybase
TU	Tuxedo
UD	DB2
VC	vCenter Server
VM	vCenter Server (instance of Virtual Server)
WW	Web

Product Codes

Product code should be specified in some CLIs. The table below lists the product codes used by Precise.

Table 2 Product code argument

Precise for TPM

Product Code	Product Name
DN	Precise for Microsoft .NET
FS	Report Manager
IN	Precise Management
IS	Insight
JE	Precise for J2EE

OR	Precise for Oracle
PU	Alerts
PF	Alerts FocalPoint
PW	PMDB
SQ	Precise for SQL Server
SP	Precise for SAP
ST	Precise for Storage
SY	Precise for Sybase
TP	Precise for TPM
UD	Precise for DB2
VC	Precise for vCenter Server
WW	Precise for Web

Installation Type Codes

Installation type code should be specified in some CLIs. The table below lists the installation type codes used by Precise.

Table 3 Installation type code

Installation Type Code	Installation Type Name
DNCOL	Precise for Microsoft .NET Collector
FP	FocalPoint
INBA	Precise Listener
ISOA	Insight Oracle Applications Collector
ISOS	Insight OS Collector
ISTCP	Insight Network Collector
ISTUX	Insight Tuxedo Collector
ISVC	Insight vCenter Server Collector
ISVM	Insight vCenter Server (instance of the virtual Server) Collector
JECOL	Precise for J2EE Collector
MN	Main Precise FocalPoint
ORBV	Precise for Oracle Bind Variable Collector
ORCOL	Precise for Oracle Collector
OROA	Precise for Oracle Oracle Applications Collector
ORPPS	Precise for Oracle PeopleSoft Collector
ORSAP	Precise for Oracle SAP Interpoint Collector
ORXP	Precise for Oracle Shark Point Collector
PUPNT	InformPoint
PUSNM	Alerts SNMP Collector
SPCOL	Precise for SAP Collector
SQCOL	Precise for SQL Server Collector
SQCOM	Precise for SQL Server Interpoint COM Collector
SQPPS	Precise for SQL Server PeopleSoft Collector

SQSAP	Precise for SQL Server SAP Interpoint Collector
SQWIN	Precise for SQL Server Windows Storage Collector
STCOL	Precise for Storage Collector
STMAP	Precise for Storage Collector
SYCOL	Precise for Sybase Collector
SYREP	Precise for Sybase Replication Server Collector
UDCOL	Precise for DB2 Collector
UDSAP	Precise for DB2 SAP Interpoint Collector
UDSYC	Precise for DB2 Symmetric Collector
UDSYM	Precise for DB2 Symmetric Mapping Collector
WWCOL	Precise for Web Collector
WWDYN	Precise for Web Dynamic Instrumentation Collector
WWNCL	Precise for Web Filters Collector
WWWEB	Precise for Web Web Server Collector

Operating System Type and Flavor

Table 4 Operating System Types

Operating System Types
AIX
HP-UX
"WIN" when used for packages suffix or "Windows NT" otherwise
Linux
s390
SunOS
SunOS_x86
WIN
UNIX
