Edit Assessments

Edit the settings of your assessment by using the **Assessment Properties** window to change basic properties or how the assessment performs its security evaluation.

To access this window, click the respective assessment or policy on the Policies tree of the **Security Summary** view, then select **Edit Settings** from the ribbon options. You can also right-click the assessment and select **Properties** to access the same window.

You can edit in the following tabs:

- General - Edit properties, such as the description
- Security Checks - Choose different security checks
- Audited SQL Servers - Change which SQL Server instances are audited by this assessment
- Internal Review Notes - Edit the internal review notes associated with this assessment

SQL Secure tells you who has access to what on your SQL Server databases. Learn more > >
