

Installation instructions

This procedure guides you through a typical install of SQL BI Manager integrated with the IDERA Dashboard.

- The SQL BI Manager installation kit provides users with a unified installer for both products: IderaDashboard and SQLBI.
- IDERA recommends running the unified installer. See [Install the IDERA Dashboard and SQL BI Manager](#) for detailed instructions.

Installation prerequisites

- The user must have a local administrator account.
- Microsoft .NET Framework 4.0 or later must be installed prior to beginning installation.

SQL [Business Intelligence Manager](#) identifies issues within the SQL BI environment to help optimize BI service performance. [Learn more](#) > >
