

Custom reports

The Custom Reports view allows you to create, import, or export reports on any counter collected by SQL Diagnostic Manager and on any of your [custom counters](#). You can [create custom reports](#) to view graphs of the counters followed by a grid containing all of the counters graphed over the entered time frame.

Import and export custom reports

You can also [import](#) or [share](#) custom reports in the [IDERA community site](#).

Access Custom Reports

Once in the Reports view, click **Custom** in the Navigation pane.

Add New Report

Create your custom report.

Import or Export an existing report

You can [import](#) or [export](#) an existing custom report to the [IDERA community site](#).
