## Import an alert response

The Alert Response import wizard allows you to import existing alert response actions.

## To import an alert response:

 $\odot$ 

- 1. Open the Alert Actions and Responses window by selecting **Tools > Alert Actions and Responses** from the SQL Diagnostic Manager console menu and clicking **Import**.
- 2. On the Welcome to the Alert Response import wizard page, click Next.

You can also access this feature by clicking Administration>Import/Export from the navigation pane and then selecting Alert Response in the import column.

3. On the Select Alert Responses to import page, browse for notification rules' XML files to import.

lect Alert Responses to import		
Browse and select Alert Responses' XML files to import.		
umber of files selected :	Select Files Clear
