Virtualization monitor reports

Virtualization monitor reports provide overview information for the virtual machines on which your monitored SQL Server instances are running. Reports are compatible for Hyper-V or VMWare VMs. Click the links below for more information.

Virtualization Monitor Reports

Virtualization Summary

Use the Virtualization Summary report to view a summary of your virtualized environment.

Virtualization Statistics

Use the Virtualization Statistics report to view an analysis of your virtualization performance trends for a virtualized machine.

SQL Diagnostic Manager identifies and resolves SQL Server performance problems before they happen. Learn more > >
