

# Resource analysis reports

Resource analysis reports provide information that focuses on key performance metrics of your SQL Servers. Click the links below for more information.

## Resource Analysis Reports

### Session Statistics

Use the [Session Statistics](#) report to track key session and network performance metrics over time.

### CPU Statistics

Use the [CPU Statistics](#) report to track key CPU performance metrics.

### Disk Details

Use the [Disk Details](#) report to track key disk metrics.

### Disk Space Usage

Use the [Disk Space Usage](#) report to view disk space information across your environment.

### Disk Space History

Use the [Disk Space History](#) report to view disk activity history across your environment.

### Disk Statistics

Use the [Disk Statistics](#) report to track key disk performance metrics.

### Replication Statistics

Use the [Replication Statistics](#) report to track key replication performance metrics.

### Memory Statistics

Use the [Memory Statistics](#) report to track key memory performance metrics.

SQL [Diagnostic Manager](#) identifies and resolves SQL Server performance problems before they happen. [Learn more](#) > >
