

# Assign instances to user

The Select SQL Server window allows you to select the SQL Server instances to apply the permissions you set on the Specify User Permissions window. Select [Server tags from the Tags drop-down list](#) or [choose New tag from the list](#). Select the SQL Server Instances you want the login to have permissions on and click **Add** button to move them to the Selected Servers column. Click **Next** to continue.

SQL [Diagnostic Manager](#) identifies and resolves SQL Server performance problems before they happen. [Learn more](#) > >
