

# Managing products in the IDERA Dashboard

The IDERA Dashboard hosts IDERA products that register with the Dashboard. Click the **Manage Products** option in the Administration view to open the respective window.

In the **Manage Products** window you can perform the following actions on registered products:

## Edit a Product

To edit a product, select it from the Products list. The Dashboard displays the settings for the selected product on the panel to the right. Make the necessary modifications and click **Save**.

MANAGE PRODUCTS

SEARCH:

Register a Product

Product	Version	Registered	Location	Credentials
IderaDashboard	3.0.1.61	May 19, 2016 10:1...	CR-2K8R2	SIMPSONS\Admin...
SQLdm(demo)	10.1.0.0	May 19, 2016 10:2...	(local);DiagnosticMana...	simpsons\adminis...

Migrate product

## Delete a Product

To remove a product, select it from the Products list and click **Delete** on the panel to the right. A confirmation dialog displays; click **Yes** to remove or **No** to cancel.

If you want to uninstall the IDERA Dashboard, make sure to delete all registered products before uninstalling.

## Migrate Product

Allows you to migrate the registered product to a different IDERA Dashboard. Select the product from the Products list and click **Migrate product**.

MIGRATE TO DIFFERENT IDERA DASHBOARD

Password :

Migrate

Cancel

Fill in the requested information and click **Migrate**.

Register SQL Diagnostic Manager in your IDERA Dashboard. Click **Register a Product** to display the configuration settings.

When the Add a Product to Idera Dashboard window displays, fill out the needed information as follows:

Add a Product to Idera Dashboard

Product :

SQLdm

Display Name :

dm

Unique display name helps you distinguish different instances of the same product, if you have multiple installs. We recommend display name using location or function. "DiagnosticManagerWest" or "DiagnosticManagerProd".

Host :

W12R2

Port :

5170

Product Administrator

User Name :

W12R2\Administrator

Password:

.....

Cancel

Register

Type all the requested information and click **Register**.

SQL Diagnostic Manager is unregistered from the IDERA Dashboard when you uninstall it.

SQL **Diagnostic Manager** identifies and resolves SQL Server performance problems before they happen. [Learn more >>](#)
