

# Configure IDERA Dashboard views

The **Configure Dashboard Views** option allows users to customize which product widgets are shown in the Overview and Details view tabs of the IDERA Dashboard.

Click the **Customize DBA Dashboard** option in the **Administration** tab to display the Customize DBA Dashboard configuration panel.

**Customize DBA Dashboard**

Hide / Show DBA Dashboard : Show DBA Dashboard to all users [Reset to default view](#)

[Add Column](#) | [Remove Column](#) Select View : Overview [Add a widget](#)

Total Widgets: 1 Width(%) : 33 33 34 [Apply](#)

[Choose another](#) [Settings](#)

Overall Status | SQLBI Manager (SQL)

[Cancel](#) [Save](#)

**Tips**

The Idera Dashboard hosts products that register with the dashboard. Typically this is handled at the time the product is installed or uninstalled. The Manage Products option lets you view and manage the list of registered products.

This screen lets you manage the credentials that the Idera Dashboard uses to connect to the registered products as well as manage the list of registered products.

In the Customize DBA Dashboard dialog you can try the following:

- Select to Hide or Show the DBA Dashboard to all users or to users with permissions in two or more products.
- Select the View you want to modify (Overview or Details View).
- Add or remove columns from the selected View.
- Specify the column widths.
- Add product widgets.
- Remove widgets.
- Re-arrange widgets (drag and drop).

Additionally, you can:

- Modify specific settings for each widget, such as its default state (Expanded or Collapsed).
- Assign another widget to a previously placed widget.
