

View application status

In the IDERA Newsfeed Platform Manager, you can check the status and other properties of the SQLDM application you registered with the IDERA Newsfeed.

You can view the following properties:

- The date and time of last published status update.
- The total number of status updates that have been published by SQLDM.
- The number of servers being monitored by SQLDM.
- The number of coworkers who are following this application.

Follow these steps, to view your application status:

1. Start the IDERA Newsfeed Platform Manager console.
2. Click the **Applications** tab.
3. To ensure the displayed properties are current, click **Refresh**.

SQL **Diagnostic Manager** identifies and resolves SQL Server performance problems before they happen. [Learn more](#) > >
