## Viewing all instances

Click here for 1.0 Documentation

The Instances tab provides a broad visibility of your environment. SQL Elements displays in this section all available instances in the following views:

- MANAGED Instances you have registered with SQL Elements.
  DISCOVERED Instances discovered by SQL Elements and not registered yet.
- IGNORED Instances you have chosen not to manage with SQL Elements.
- SQL LICENSING Helpful information about your instances to help you determine your SQL Server licensing requirements.
