

Configure IDERA Dashboard DBA views

The purpose of IDERA Dashboard is to host other IDERA products. These products must register with IDERA Dashboard, which is typically done at the time the product is installed or uninstalled. The [Manage Products](#) option lets you view and manage the list of registered products.

The Customize DBA Dashboard option lets you manage the objects that appear on the Overview and Details View tabs of the IDERA Dashboard.

The screenshot shows the IDERA Dashboard Administration page. The header includes the IDERA logo, a hamburger menu, and the text 'DASHBOARD'. The navigation bar has tabs for OVERVIEW, DETAILS VIEW, ALERTS, and ADMINISTRATION. The ADMINISTRATION tab is selected. The main content area is titled 'ADMINISTRATION' and contains several sections: Users, Instances, Products, Tags, Configure Navigation Order, Configure Dashboard Views, Send Notification to All Users, and Licensing. The 'Configure Dashboard Views' section is highlighted with a red rectangle, showing options to 'Customize Main Navigation Tab Order' and 'Customize DBA Dashboard'.

To customize Dashboard views:

Click **Customize DBA Dashboard** in the Administration view, and the Customize DBA Dashboard dialog appears. Note that the **Select View** field which displays whether the changes you are making apply to the Overview or Details View of the IDERA Dashboard.

Customize DBA Dashboard

Reset to default view

Hide / Show DBA Dashboard : Show DBA Dashboard to all users

Add Column | Remove Column Select View : Overview Add a widget

Total Widgets: 5 Width(%) : 33 33 34 Apply

Choose another X SQL Server Licensing | SQLInventoryManager | Settings

Choose another X Tags | SQLInventoryManager | Settings

Choose another X TOP DATABASES BY ACTIVITY | SQLInventoryManager | Settings

Choose another X TOP DATABASES BY SIZE | SQLInventoryManager | Settings

Choose another X Instance/Database Search | SQLInventoryManager | Settings

Tips

The Idera Dashboard hosts products that register with the dashboard. Typically this is handled at the time the product is installed or uninstalled. The Manage Products option lets you view and manage the list of registered products.

This screen lets you manage the credentials that the Idera Dashboard uses to connect to the registered products as well as manage the list of registered products.

In the Customize DBA Dashboard dialog you can:

- **Hide/Show DBA Dashboard.** Options allow you to display the Dashboard to all users, hide the Dashboard from all users, or display the Dashboard only to users who have permissions on two or more registered IDERA products.
- **Add/Remove Column.** Based on the number of widgets you want to include, you can change the number of columns for a better view.
- **Width (%).** Use percentages to set the width of your columns.

Be sure to click **Save** to retain your changes.

IDERA SQL Inventory Manager lets you discover and visualize your SQL Server environment. [Learn more >>](#)
