

View Computer Details

IDERA SQL Inventory Manager provides you with the computer details of your SQL Server instance host machines.

To access this information, go to the **Instance details** view, and review the information in the Server Summary section. Click **View Server Details** or click the name of the **Host Server** and SQL Inventory Manager opens a window with the respective computer details. Also note the custom inventory fields included above the **View Server Details** button. Click the pencil icon to change this value. For more information about this feature, see [How to manage custom inventory fields](#).

The screenshot displays the IDERA SQL Inventory Manager web application. The top navigation bar includes 'OVERVIEW', 'EXPLORER', 'INSTANCES', and 'ADMINISTRATION'. The main content area is titled 'INSTANCE DETAILS' and shows the instance 'AUT-2000-003\SQL2000'. Below this, there are health check recommendations, a table of applications, and two charts: 'TOP DATABASES BY SIZE (MB)' and 'TOP DATABASES BY ACTIVITY (TRANSACTIONS/SEC)'. The right sidebar contains a 'STATUS' section with 'UP', '100%' uptime, and '1 ms' response time, followed by an 'INSTANCE SUMMARY' section with various server details, and a 'SERVER SUMMARY' section with a 'View Server Details' button. The bottom of the page shows a summary of databases: 'DATABASES (5 databases | 28.2 MB total size)'.

On this window you can get the following information:

- **Computer information**
 - Computer name
 - Full computer name
 - Domain
- **Windows information**
 - Windows version
- **System information**
 - Manufacturer
 - Model
 - Computer Type
 - Physical and Logical CPUs
 - Physical Memory
 - Number of Network Interface Cards (NICs)
 - CPU Name
 - CPU Speed
 - Whether the computer is clustered
- **Drive information** - All drives, type, their capacity, and respective free space.
- **Hosted instances** - All instances hosted by this computer, if they are clustered, and their active and passive nodes.

Computer Details

Computer information

Computer name: AUT-2000-003

Full computer name: AUT-2000-003

Domain: simpsons.qa

Windows information

Microsoft Windows Server 2008 R2 Enterprise

Build: 6.1.7600

System information:

Manufacturer: VMware, Inc.

Model: VMware Virtual Platform

Computer Type: Virtual

Physical CPUs: 2

Logical CPUs: 2

Physical Memory: 4.0 GB

NICs: 2

CPU Name: Intel(R) Xeon(R) CPU E5645 @ 2.40GHz

CPU Speed: 2394 MHz

Clustered: No

Drive Information

| Drive | Type | Capacity | Free Space |
|-------|-------|----------|------------|
| C: | Fixed | 39.9 GB | 21.4 GB |
