

How to subscribe to Alerts

IDERA SQL Inventory Manager can send email notifications for warning or critical conditions from your environment, in order to receive these notifications you have to subscribe to alerts.

To subscribe, go to the **Administration** tab, in the **Alert Emails** section, click **Subscribe to alerts**.

The screenshot shows the IDERA SQL Inventory Manager interface. The top navigation bar includes 'OVERVIEW', 'EXPLORER', 'INSTANCES', and 'ADMINISTRATION'. The 'ADMINISTRATION' tab is selected. On the left, the 'Alert Emails' section is expanded, showing options like 'Configure email (SMTP) settings', 'Subscribe to alerts' (highlighted with a red box), and 'Manage Subscriptions For All Users'. The right pane shows various configuration options for Licensing, Tags, Discovery, and Custom Inventory Fields.

On the **Subscribe to Alerts** window, check the respective box and type the email address where you want to receive these notifications.

The 'Subscribe to Alerts' dialog box has a title bar with a close button. It contains a checkbox labeled 'Receive SQL Inventory Manager alert emails for critical issues such as availability problems.' Below this is a text field for 'Email address:'. At the bottom, there is a warning icon and text: 'Email settings have not been configured yet. Click here to configure sending alert emails.' with a blue link. There are 'Ok' and 'Cancel' buttons at the bottom right.

Note

If you have not configured your email settings, IDERA SQL Inventory Manager displays **Email settings have not been configured yet. Click here to configure sending alert emails**, click this option and fill the required fields, for more information go to [Configuring email settings for alert notifications](#).

Manage users

You can also manage your subscriptions from the following sections:

- [Managing users](#).
- [Managing subscriptions for all users](#).
