

# Sending notifications

The IDERA Core Web Framework 3.0 allows you to send notifications over Email to all registered users in the IDERA Dashboard.

Click **Send notification** in the **Administration** tab to open a text field to enter the message you want to send.

A screenshot of a web interface showing a dialog box titled "Send Notification to All Users". Below the title is a subtitle: "Add a warning message to notify all users about product upgrades." The dialog box contains a text input field with the placeholder text "Specify message to inform users". Below the input field is a button labeled "Send". To the right of the dialog box, a partially visible button labeled "Manage Lic" is visible.

Send Notification to All Users

Add a warning message to notify all users about product upgrades.

Specify message to inform users

Send

Manage Lic

Click **Send** to send the notification message.

The Notifications feature requires you to previously configure SMTP settings. Email notifications can only be sent to users with a registered Email address.
