

Get started

Use the following checklist to guide you through the process of getting started with IDERA SQL Secure.

✓	Follow these steps ...
✓	Register the SQL Server instances whose security models you want to assess and audit.
✓	Configure snapshots to collect audit data from the registered instances.
✓	Find security issues using the default All Servers policy .
✓	Create custom policies to assess compliance to specific security regulations.
✓	Save assessments for policies you want to use in your audit process.
✓	Compare assessments to identify changes over time.
✓	Perform forensic analysis of your security model using the Permissions Explorer .
✓	Discover vulnerabilities using the built-in reports .
