Identify unavailable databases

The IDERA SQL Secure **Unavailable Databases** tab lists the databases about which SQL Secure was unable to collect SQL Server security data.

SQL Secure displays one of the following status messages for each database listed:

Status Message	Description
Database is loading or exclusively locked	SQL Secure is unable to audit the database because it is either being backed up or has been otherwise locked.
Suspect	SQL Secure is unable to report any data on the database.
Not Accessible	SQL Secure is unable to access the database. This could be because the database has been moved or deleted.

You can use any of the following options available in the upper corner of this section:

Option	Description
Show group by box	This button allows you to organize the list by the column headers
Save as Excel File	This button allows you to save your suspect windows accounts list to an Excel file
Print	This button allows you to print out your list
