SQL Safe Backup 8.2.x

Go to Current Version | Go to Version 8.6.x | Go to Version 8.5.x | Go to Version 8.4.x | Go to Version 8.3.x

Go to Version 8.0.x

Hands-free backup across your SQL Servers

- **Save time**. Back up faster than native SQL with dynamic compression
- **Reduce failures**. No disruption during network outages
- **Automate**. Full, differential, and transaction log backups
- **Enterprise management**. Scalable, centralized console and repository
- **Save space**. Intelligent compression across SQL versions
- **Instant restore**. Immediate access to backup data without waiting for a lengthy restore

SQL Safe is a high-performance backup and recovery solution for your SQL Servers. Learn more > >
