

Agent History Report

The Agent History Report lists the changes and updates applied to the SQL Compliance Manager Agent deployed on a specific SQL Server. Use this report to track agent configuration changes as well as agent activities, such as SQL Compliance Manager Agent service restarts.

The screenshot shows the SQL Compliance Manager interface. On the left, a sidebar lists various audit reports under the 'Alerts / History' section. The 'Agent History' report is highlighted. The main area displays a grid of report thumbnails, each with a description. The bottom section shows 'Reporting Services' with 'Deploy Reports' and 'View Deployed Reports' options.

A filter can include a list of wildcards, separated by commas, where a wildcard is a string, which may contain asterisks. The following parameters are specific to the selected report and enable you to filter the data to include in the report.

Available actions

Server Instance

Allows you to select a registered instance on which you want to report. Select **ALL** to report on all instances.

Start Date

Allows you to select the start date for the range from which you want to report.

End Date

Allows you to select the end date for the range from which you want to report.

Start Time - Hour

Allows you to select the exact starting hour of the day for the range from which you want to report.

Start Time - Min

Allows you to select the exact starting minute of the day for the range from which you want to report.

Start Time - AM/PM

Select between AM or PM from the drop down list to configure the Start Time for Each Day range from which you want to report.

End Time - Hour

Allows you to select the exact ending hour of the day for the range from which you want to report.

End Time - Min

Allows you to select the exact ending minute of the day for the range from which you want to report.

End Time - AM/PM

Select between AM or PM from the drop down list to configure the End Time for Each Day range from which you want to report.

Agent

Allows you to type the name of one or more agents on which you want to report.

Event

Allows you to type the name of one or more events on which you want to report.

Run Report

Click this button to Run the report.

Default columns

Time

The Time column displays the date and time when the event was captured.

Agent

The Agent column displays the name of the SQL Server Agent.

Server Instance

The Server Instance column displays the name of the Instance Server where the event was captured.

Event

The Event column displays a description of the event captured.
