

Application Activity Statistics Report

The Application Activity Statistics Report lists a summary of application activity by activity type. Use this report to audit activity across multiple applications and databases.

The screenshot displays the IDERA SQL Compliance Manager interface. On the left, a navigation pane titled 'Audit Reports' lists various report categories. The 'Alerts / History' category is expanded, and the 'Application Activity Statistics' report is highlighted with a green border. The main pane on the right, titled 'Alerts / History', displays a grid of report tiles. Each tile includes an icon, a title, and a brief description. The 'Application Activity Statistics' tile is highlighted with a green border. Below the grid, there are sections for 'Reporting Services' and 'Administration'.

Alerts / History	
Agent History List all activity for SQL Compliance Manager Agent.	Alert Activity - Data Show SQL Compliance Manager data alert activity.
Alert Activity - Events Show SQL Compliance Manager event alert activity.	Alert Activity - Status Show SQL Compliance Manager status alert activity.

A filter can include a list of wildcards, separated by commas, where a wildcard is a string, which may contain asterisks. The following parameters are specific to the selected report and enable you to filter the data to include in the report.

Available actions

Server Instance

Allows you to select a registered instance on which you want to report. Select **ALL** to report on all instances.

Databases

Allows you to select or type the name of one or more databases on which you want to report.

Start Date

Allows you to select the start date for the range from which you want to report.

End Date

Allows you to select the end date for the range from which you want to report.

Start Time - Hour

Allows you to select the exact starting hour of the day for the range from which you want to report.

Start Time - Min

Allows you to select the exact starting minute of the day for the range from which you want to report.

Start Time - AM/PM

Select between AM or PM from the drop down list to configure the Start Time for Each Day range from which you want to report.

End Time - Hour

Allows you to select the exact ending hour of the day for the range from which you want to report.

End Time - Min

Allows you to select the exact ending minute of the day for the range from which you want to report.

End Time - AM/PM

Select between AM or PM from the drop down list to configure the End Time for Each Day range from which you want to report.

Schema

Allows you to type the name of the schema on which you want to report.

Application

Allows you to type the name of one or more applications on which you want to report.

Category

Allows you to select the category type on which you want to report.

Privileged Users Only

Select between True or False from the drop down list to report on Privileged Users only or to report on All User types.

Run Report

Click this button to Run the report.

Default columns

Application Name

The Application Name column provides the name of the application where events were captured.

Event Count

The Event Count column show the number of events captured by each application.
