Permissions within SQL Compliance Manager

☒ Can configure SQL Compliance Manager settings and view audit data. This login is a member of the Systems Administrators role on the SQL Server instance that host the Repository.

☐ Can view and report on audit data.

☐ Web Application Access

OK Cancel

Available fields

Security access

Allows you to specify whether this login should have access to the SQL Server instance that hosts the Repository databases.

Permissions within SQL Compliance Manager

Allows you to indicate which SQL Compliance Manager permissions this login should have. You can grant the login permission to configure audit settings or view audit data. By default, all logins on the Repository SQL Server instance have read access to audit data. Read access allows the user to view and report on audit data stored in the Repository and archive databases.
