

Creating Tasks

SQL Enterprise Job Manager supports monitoring your Windows Scheduled Tasks.

In order to monitor tasks from a SQL Server instance, you must register the instance with SQL Enterprise Job Manager and select the option **Monitor task for the instance(s)** . For more information about these options go to [Registering SQL Server Instances](#).

You can view your monitored tasks by going to the **Jobs** tab and selecting **Tasks** on the top right corner options.

The following sections to view more detailed information about your monitored tasks:

- [Viewing information about your tasks](#)
- [Performing actions on your tasks](#)
- [Creating tasks](#)

SQL [Enterprise Job Manager](#) monitors and manages your SQL Server agent jobs. [Learn more](#) > >
