

## Configure IDERA Dashboard DBA views

The purpose of IDERA Dashboard is to host other IDERA products. These products must register with IDERA Dashboard, which is typically done at the time the product is installed or uninstalled. The [Manage Products](#) option lets you view and manage the list of registered products.

The Customize DBA Dashboard option lets you manage the objects that appear on the Overview and Details View tabs of the IDERA Dashboard.

The screenshot shows the IDERA Dashboard Administration page. The header includes the IDERA logo and 'DASHBOARD' text. The navigation bar has tabs for OVERVIEW, DETAILS VIEW, ALERTS, and ADMINISTRATION. The ADMINISTRATION tab is selected. The main content area is titled 'ADMINISTRATION' and contains several sections: Users, Instances, Products, Tags, Configure Navigation Order, Customize Main Navigation Tab Order, Configure Dashboard Views, Send Notification to All Users, and Licensing. The 'Configure Dashboard Views' section is highlighted with a red box, showing options to 'Customize the objects that display on the Dashboard Views' and 'Customize DBA Dashboard'.

**To customize Dashboard views:**

Click **Customize DBA Dashboard** in the Administration view, and the Customize DBA Dashboard dialog appears. Note that the **Select View** field which displays whether the changes you are making apply to the Overview or Details View of the IDERA Dashboard.

In the Customize DBA Dashboard dialog you can:

- **Hide/Show DBA Dashboard.** Options allow you to display the Dashboard to all users, hide the Dashboard from all users, or display the Dashboard only to users who have permissions on two or more registered IDERA products.
- **Add/Remove Column.** Based on the number of widgets you want to include, you can change the number of columns for a better view.
- **Width (%).** Use percentages to set the width of your columns.

Be sure to click **Save** to retain your changes.
