

What is SQL Business Intelligence Manager?

SQL Business Intelligence Manager provides agent-less monitoring of the servers and services for:

- SQL Server Analysis Services.
- SQL Server Reporting Services.
- SQL Server Integration Services.

Get insight into over 140 metrics including OS counters, service performance counters, and system availability. Dashboard views display data across the entire BI environment and enable you to drill down to find details relating to performance and availability issues.

In addition, configurable alerts keep you notified of the state of your BI environment so you can take corrective action as needed.
