

Deployment considerations

Before implementing SQL Compliance Manager, review the following guidelines to ensure optimal performance, security, and disaster recovery. For example, ***if you anticipate collecting large numbers of events (several hundred thousand or more) in a short time period***, consider incorporating one or more of these guidelines in your SQL CM deployment.

- [Identify how much audit data you expect to collect](#)
- [Use a dedicated computer for the Collection Server](#)
- [Optimize the model database settings](#)
- [Optimize the tempdb database settings](#)
- [Preserve audit data using archives](#)
- [Implement a disaster recovery strategy](#)

SQL **Compliance Manager** audits all activity on your server. [Learn more](#) > >
