

Configuration wizard - Existing Audit Data window

This window indicates that an event database already exists for this SQL Server instance in SQL Compliance Manager. This database most likely contains previously audited event data. Keeping this audit data ensures you maintain compliance and preserve a record of all audited activities on this SQL Server instance.

Specify whether you want to keep the previously collected audit data and use the existing event database, and then click **Next**.

SQL Compliance Manager audits all activity on your server. [Learn more](#) > >
