

# Configure your deployment

After initially installing and setting up the SQL Admin Toolset, there are several tasks you might want to do in order to further customize and streamline your deployment including:

- [Changing the account SQL Admin Toolset uses to connect to SQL Server](#)
- [Creating server groups or changing server group membership](#)
- [Managing your product license](#)
- [Setting global options that affect all tools](#)

SQL **Admin Toolset** delivers 24 essential administration tools. [Learn more](#) > >
