

Capture an audit snapshot

You can take a snapshot of your audit settings on demand, to meet immediate audit needs or diagnose issues.

To capture an audit snapshot:

- 1. Click **Auditing** on the menu bar, and then select **Capture Audit Snapshot**.
- 2. Specify whether you want a snapshot of audit settings for all registered SQL Server instances or for a specific instance, and then click **OK**.
- 3. Review the newly captured snapshot.

SQL Compliance Manager audits all activity on your server. [Learn more](#) > >
