

New Event Filter wizard - SQL Server Event Type tab

The SQL Server Event Type tab of the New Event Filter wizard allows you to specify the type of SQL Server event you want to filter from your audit data.

Available actions

Select type of event to filter from your audit data

Allows you to select the specific SQL Server event category or type you want to filter from your audit data. When the Collection Server processes an audited event that matches the specified event type, the filter is run to see whether the identified event matches the other filter criteria.

Edit filter details

Allows you to change your specified criteria at any time as you create your new filter. As you specify criteria using the New Event Filter wizard, the filter details grows to include these additional settings. To edit previously set criteria, click the corresponding setting.

SQL Compliance Manager audits all activity on your server. [Learn more](#) > >
