View and Save Results

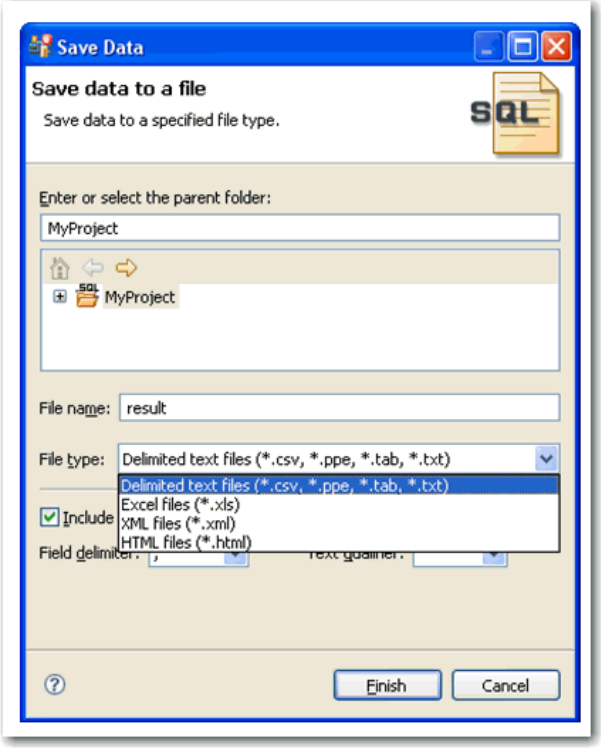
Once a file has been executed, the results are displayed in the Results view. Here, you can examine the outcome of the execution process, as well as save the results in other file formats, as needed.

You can view results in the following formats:

- HTML
- XML
- TXT

To save results

1. Right-click on the **Results** view and select **Save Data**. The **Save Data** dialog appears.



2. Select the project name to which you want to save the results, enter a file name, choose the file parameters, and then choose a file format from the drop down menu. You can select delimited text file, Excel, XML, or HTML file formats.
3. Click **Finish**. The results are saved in the directory location and format that you specified.
