

# Audited Database Properties

Use the different Audited Database Properties windows to configure your desired audit settings. When you choose to audit a database, IDERA SQL Compliance Manager collects and processes SQL Server events on the database according to your audit settings.

## Use the different tabs to set your Audited Database Properties:

- Audited Database Properties window - General tab
- Audited Database Properties window - Audited Activities tab
- Audited Database Properties window - DML/SELECT Filters tab
- Audited Database Properties window - Before-After Data tab
- Audited Database Properties window - Sensitive Columns tab
- Audited Database Properties window - Trusted Users tab
- Audited Database Properties window - Privileged User Auditing tab
