Manage tags

The Manage tags window allows you to Add, Edit, and Remove Tags. For more information on tags and their functionality, see Working with tags.

> ⚠ This window is available only to SQL Diagnostic Manager Administrators.

The Manage Tags window shows a list of all existing tags. From here, you can:

- Modify the list of servers, custom counters, and permissions associated with a tag.
- Create a new tag.
- Edit an existing tag.
- Remove a tag (Removing a tag does not delete items associated with that tag).

Access the Manage Tags window

To access the Manage Tags window:

1. Select **File**.
2. Select **Manage Tags**.

SQL Diagnostic Manager identifies and resolves SQL Server performance problems before they happen. Learn more > >
