

Version Store Size (MB) alert

The Version Store Size (MB) alert provides the size of the tempdb version store in megabytes. This alert is disabled by default and occurs only on instances running SQL Server 2005 or above.

This alert is raised based on the diagnostic data collection interval specified in Server Properties. For more information, see [Set general server options](#).

SQL Diagnostic Manager identifies and resolves SQL Server performance problems before they happen. [Learn more >>](#)
