

Notifying users about product upgrades in the IDERA Dashboard

The Send Notification to All Users widget of the Administration view lets you send a notification to all user accounts added to IDERA Dashboard. Use this feature to notify users about product upgrades and other issues affecting product use.

To send notification to all users:

1. Click the **Send Notification to All Users** link and a pop-up window appears.

2. Type the message you want to send, and then click **Send**.
