

Manage Products in the IDERA Dashboard

The **IDERA Dashboard** hosts IDERA products that are registered with the dashboard. The **Products** section of the **Administration** tab allows users to view and manage registered products.

Register a product

To register a product, follow these steps:

1. Click **Register a Product** on the top section of the Manage Products tab.
2. In the **Register a Product to IDERA Dashboard** window, fill in the required fields:
 - **Product Install Location:** Specify where you would like to install your product (local or remote).
 - **Product Information:** Specify the following product information:
 - **Product:** Select or enter *SQLSafeRestService*.
 - **Display name:** Specify a unique name.
 - **Port:** Specify the port on which the SQLSafeRestService is listening on. The default port is 9998.
 - **Product Administrator Credentials:** provide the following user credentials:
 - **User Name:** Specify the user with Dashboard Administrator privileges.
 - **Password:** Enter the password for the user.
3. Click the **Register** button.

Keep in mind:

- If you specifically know what you would like to filter, use the **SEARCH** option on the top section of this tab.
- You can define how many products you want to view per page. Go to the bottom section of the tab and type the number of products you want to see per page.

Editing a product

To edit a product, follow these steps:

1. Click the product from the list of available products.
2. In the **Edit IDERA Registered Product** window, you can change the location and the connection credentials.
3. Click **Save** to keep changes.
 - **Host:** Specify the host on which the SQLSafeRestService has been installed.
 - **Port:** Specify the port on which the SQLSafeRestService is listening on. By default, 9292 port is set.
 - **Product Administrator Credentials:** provide the following user credentials:
 - **User Name:** Specify the user with Dashboard Administrator privileges.
 - **Password:** Enter the password for the user. To migrate the product to a different IDERA Dashboard, click **Migrate product**. In the new window, specify the following options:
4. Click **Migrate** to keep changes.

Removing a product

To remove a product, follow these steps:

1. Click the product from the list of available products.
2. Select **Delete** on the **Edit IDERA Registered Product** window.
3. A window will appear asking for confirmation for the removal of the product. Click **Yes** to continue with the removal of the product. Click **No** to cancel.
