

# Select a SQL Server

In the **Select a SQL Server** section of the **Register a SQL Server** wizard, specify the SQL Server instance you want to add to IDERA SQL Secure for auditing.

### To specify an instance:

1. Type the name of the instance you would like to audit.
2. Click the ellipsis button  to access a list of monitored SQL Servers in your domain, browse to locate your respective instance, then click **OK** to add it.
3. Click **Next** to go to the following section and [Specify your connection credentials](#).

 You can add as many instances as your SQL Secure license provides. For more information, see [Managing Your SQL Secure Licenses](#).

SQL Secure tells you who has access to what on your SQL Server databases. [Learn more >>](#)
