

User permissions summary

The IDERA SQL Secure **Summary** tab of the **User Permissions** Explorer contains SQL Server permission settings for the Windows account or SQL Server login you specified in the User Permissions search criteria.

Use the **Summary** tab to view which login permissions the individual user has, including the SQL Server roles to which the user belongs. You can print or save the results to an Excel spreadsheet.

SQL Secure tells you who has access to what on your SQL Server databases. [Learn more > >](#)
