Analytic tools

The IDERA SQL Admin Toolset contains the following analytic tools:

Index Analyzer

Analyze the usage patterns of your indexes, including those used most often used and those never used.

Inventory Reporter

Show inventory and configuration details for your SQL Server instances and their host computers.

Patch Analyzer

Find out if your SQL Servers are up to date with the latest available patches.

Server Ping

Continuously monitor the status and availability of your SQL Servers.

Server Statistics

View statistics and counts about your SQL Servers.

Space Analyzer

Analyze the space usage of your SQL Server by drive or database.

IDERA SQL Admin Toolset delivers 24 essential administration tools. Learn more > >
