

Select report type

SQL Diagnostic Manager allows you to choose the type of custom report you want to create. You can select the *show graphical data* report or the *show worst performing servers for each metric* report.

Add Custom Report

Select the counters that you would like to include in your custom report.
Choose a counter type and the specific counter that you would like to report on

SQL Diagnostic Manager gathers Windows and SQL Server counters as well as the custom counters that you have created. Please choose which of these counters you would like to include in this custom report.

Report Type

☒ Show Graphical Data

☒ Include tabular data in report

☐ Show worst performing servers for each metric.
