

## Select audited SQL Server to explore data

When you want to explore user or object permissions, you can select a specific SQL Server in any of the views of IDERA SQL Secure, right-click it, and select the options **Explore user permissions**, **Explore Role Permissions**, or **Explore Object permissions**. SQL Secure opens the respective tabs for the selected SQL Server.

If the SQL Server instance you want to select is not listed, the instance may not be [registered with SQL Secure](#).
