

How to manage licenses

A license key is required to access all SQL Elements features and determines the number of SQL server instances that you can monitor.

View your license status, add, or buy a new license key using the Manage License action. To access this option, go to the **Administration** tab, and click **Manage License** on the **Licensing** section.

DASHBOARD **EXPLORER** **INSTANCES** **ADMINISTRATION**

ADMINISTRATION

Users

Give users permission to use SQL Elements. Create, edit and delete users and subscribe to alerts using the Manage Users action.

[Manage Users](#)

Instances

SQL Elements monitors SQL Server instances and their host computers. Add instances to be monitored using the Add SQL Server Instance action.

[Add SQL Server Instance](#)
[Import SQL Servers](#)

Alert Emails

SQL Elements can send email alerts to inform users about critical issues such as availability problems. To receive alert emails, you must configure alerting to use an email server available on your network and sign up to receive alert emails.

[Subscribe to alerts](#)
[Manage Subscriptions For All Users](#)

Health Checks

SQL Elements performs health checks against your monitored instances. You can control at a global level whether health checks are performed. Note that disabling a health check will also stop alert emails from being sent for the health check.

Licensing

A license is required to access SQL Elements features. View license status and add a license key using the Manage License action.

[Manage License](#)

Tags

Tags are used in SQL Elements to group SQL Servers and help you organize your managed instances. Create, view, edit and delete tags and their associated instances using the Manage Tags action.

[Manage Tags](#)

Discovery

SQL Elements automatically discovers instances on your network. You can trigger instance discovery manually below. You can also configure SQL Elements to automatically monitor all newly discovered instances.

[Manage Discovery Options](#)

SQL Elements opens a new window that displays information relevant to your current license such as type of license, status, expiration date, total licensed servers, monitored servers, license key, and SQL Elements repository.

If you want to add a new license key, type this key under the **New License** section, and click **Apply**.

If you need to buy another license, go to [Click here to buy new SQL Elements license](#).
