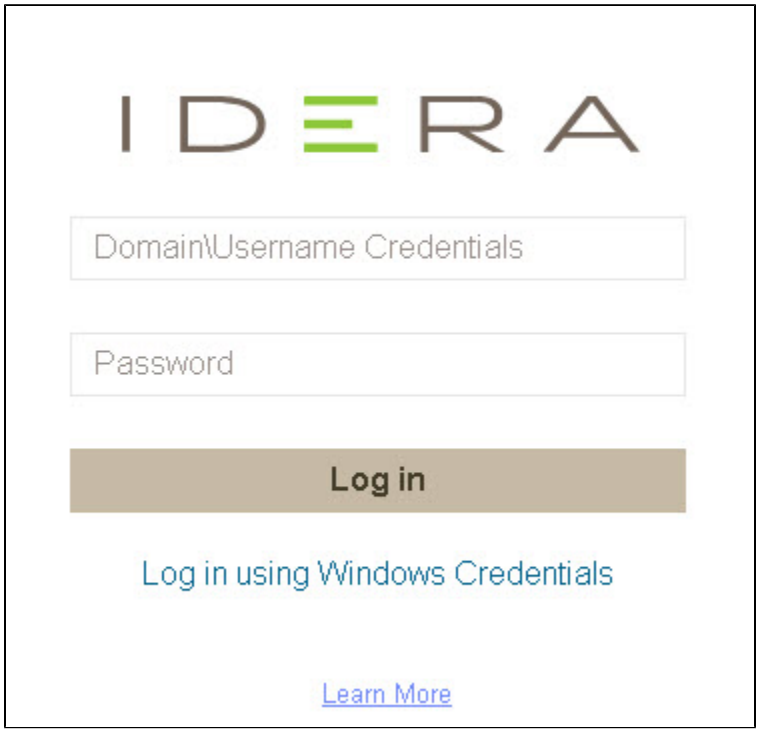
Log in the IDERA Dashboard and web console

Once you have installed and configured your IDERA Dashboard and SQL Diagnostic Manager deployments, you can login to the web console by doing the following:

1. Open your selected Browser, make sure it is compatible with the IDERA Dashboard console requirements.
2. Type the IDERA Dashboard product URL: **http://<machinename>:<port>** where **<machinename>** is the name of your host or machine, and **<port>** is the port specified during installation. The default URL is **https://<localhost>:9291** or **https://<machinename>:9291**.

   The port 9290 is used for http protocol, while the port 9291 is used for https protocol.

3. When the IDERA Dashboard web console launches on your browser, use your Windows user account **<domain\user>** with the respective password to log into the product.



The IDERA Dashboard Web Application service comes with SSL already set up. For more information on running the IDERA Dashboard over SSL, see Run the IDERA Dashboard over SSL (HTTPS)

SQL Diagnostic Manager for SQL Server performance monitoring, alerting, and diagnostics for SQL Server.
